PROFESSIONAL SUMMARY

I am a self-taught programmer with a strong background in full-stack development. I am dedicated to creating visually-appealing, user-friendly, and high-performance websites, mobile applications, APIs and desktop applications. I am self-motivated and have the relentlessness to solve problems no matter how tricky.

OBJECTIVE

To secure a position as a developer where I can utilize my skills and experience to contribute to the success of a company.

SKILLS

- HTML, CSS, JavaScript, jQuery and Python.
- Proficiency with various front-end frameworks such as React js, Bootstrap CSS, Tailwind CSS.
- Proficiency with back-end technologies like Node js, Mongodb, Express and Firebase.
- Proficiency with creating and maintaining Restful APIs using Django Rest Framework
- Proficiency with containerization with Docker and Docker hub as well as AWS
- Experience with responsive design and cross-browser compatibility.
- Familiarity with version control systems like Git.
- Understanding of web performance optimization techniques.
- Excellent problem-solving skills.
- Capable with machine learning and writing algorithms.

WORK EXPERIENCE

LUUPLI (United Kingdom), *Front-End Developer*   **07/23 - Present**
Task description:
- Work with a team of front-end developers using Markdown, React js, React Native, AWS and other technologies to design efficient and aesthetically pleasing web and mobile apps.

CODE THE DREAM (USA), *Teaching Aide*   **07/23 – 02/24**
Task description:

- Guiding upcoming developers through difficult concepts and helping them gain confidence in their programming skills.
- Answering students' questions and resolving blockers

NATIONAL IDENTIFICATION AUTHORITY(GHANA), *Technician*   11/18 – 11/20

Task description:

- I troubleshooted errors that had to do with the system and provided quick solutions and fixes to enable the registration exercise to continue smoothly.
- I tweaked the system code to depending on the particular use case or it and provided hardware assistance where required for the computers and other devices.

EDUCATION

- CS50: Introduction to Computer Science by Harvard University
- The complete web development bootcamp from Udemy
- The complete React js with hooks bootcamp from Udemy
- The complete React Native and hooks course from Udemy
- 100 days of Code Python bootcamp from Udemy

PERSONAL PROJECTS

Most of my personal projects have been uploaded to my portfolio website which you can find at https://my-portfolio-ul.netlify.app/.

I am currently also working on some team projects with 6 other developers from all over the world on a coding voyage called a Chingu which will be up on my github soon.

REFEREE

Available upon request.
